

CFT1 5-Band QRP CW Field Transceiver

By KM4CFT

Thank you for your purchase of your CFT1 5-Band CW Field Transceiver! This is my first attempt at creating a ham radio transceiver and I hope you enjoy building the kit and using the radio as much as I did getting to design it!

- Jonathan Kayne, KM4CFT

To get started building your kit and to access the Assembly and Owner's Manuals, please go to <https://www.hamgadgets.com/pdf>

Though this kit is rated at the intermediate level, it should still be reasonably easy to assemble if you have somewhat decent skills with a soldering iron.

Please keep this document for your records!

CFT1 Radio Information:

Serial Number: _____

Assembled By: _____ on _____

10 MHz Calibration	IF

Power Data:

Voltage Tested with: _____ VDC

40m	30m	20m	17m	15m
